RAD 121 Radiographic Physics

Lec: 4.0 Lab: 0 Credit: 4.0

This course introduces the principles of radiographic physics, incorporating theory and application of basic principles underlying the operation and maintenance of X-ray equipment.

Prerequisite

BIO 210

and

BIO 211

and

MAT 110

Corequisite

RAD 101

and

RAD 102

Course Offered

Summer

Grade Type

Letter Grade

Restrictions

Restricted to RAD majors

Division

Health Sciences
